### **DETAILED ACTION**

Applicant's request for reconsideration of the finality of the rejection of the last Office action is persuasive and, therefore, the finality of that action is withdrawn. Previous rejections not recited below are withdrawn.

#### ***Claim Rejections - 35 USC § 102***

(e) the invention was described in a patent granted on an application for patent by another filed in the United States before the invention thereof by the applicant for patent, or on an international application by another who has fulfilled the requirements of paragraphs (1), (2), and (4) of section 371(c) of this title before the invention thereof by the applicant for patent.

The changes made to 35 U.S.C. 102(e) by the American Inventors Protection Act of 1999 (AIPA) and the Intellectual Property and High Technology Technical Amendments Act of 2002 do not apply when the reference is a U.S. patent resulting directly or indirectly from an international application filed before November 29, 2000. Therefore, the prior art date of the reference is determined under 35 U.S.C. 102(e) prior to the amendment by the AIPA (pre-AIPA 35 U.S.C. 102(e)).

Claims 1,15-17 are rejected under 35 U.S.C. 102(e) as being anticipated by Foor et al. (WO 03/079788; 10/2/03). Foor et al. teach a fungicidal composition comprising fluopicolide and chlorothanil (page 44 lines 7 - 11, page 50 Table A Compd No. 1). Foor et al. teach that the typical ratio of fluopicolide to chlorothanil ranges from 100:1 to 1:100 (page 41 lines 24-28). Foor et al. teach that the composition can be added diluents and surfactants (page 44 lines 33-35). Foor et al. teach a method of applying the composition to vegetable and fruit crop in order to control fungi growth (page 48 line 29 - page 49 line 22).
